

# Ionic Detox Device Information

## Ionic Detox Practitioner Package

### Ionic Detox Power Supply

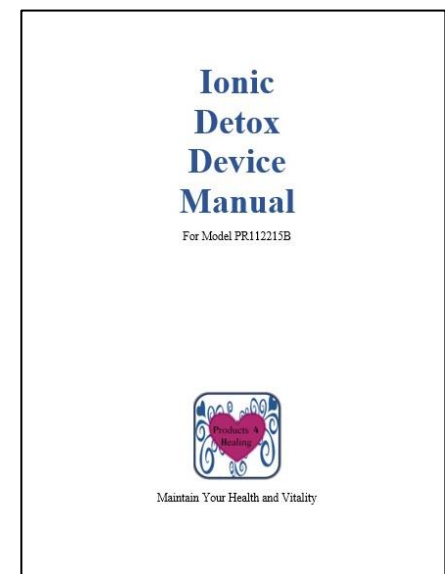

- Fused for Protection
- Short Circuit Protection
- Input: 115V AC 60Hz 50W
- **2.5 AMP Constant, 3 AMP Surge**

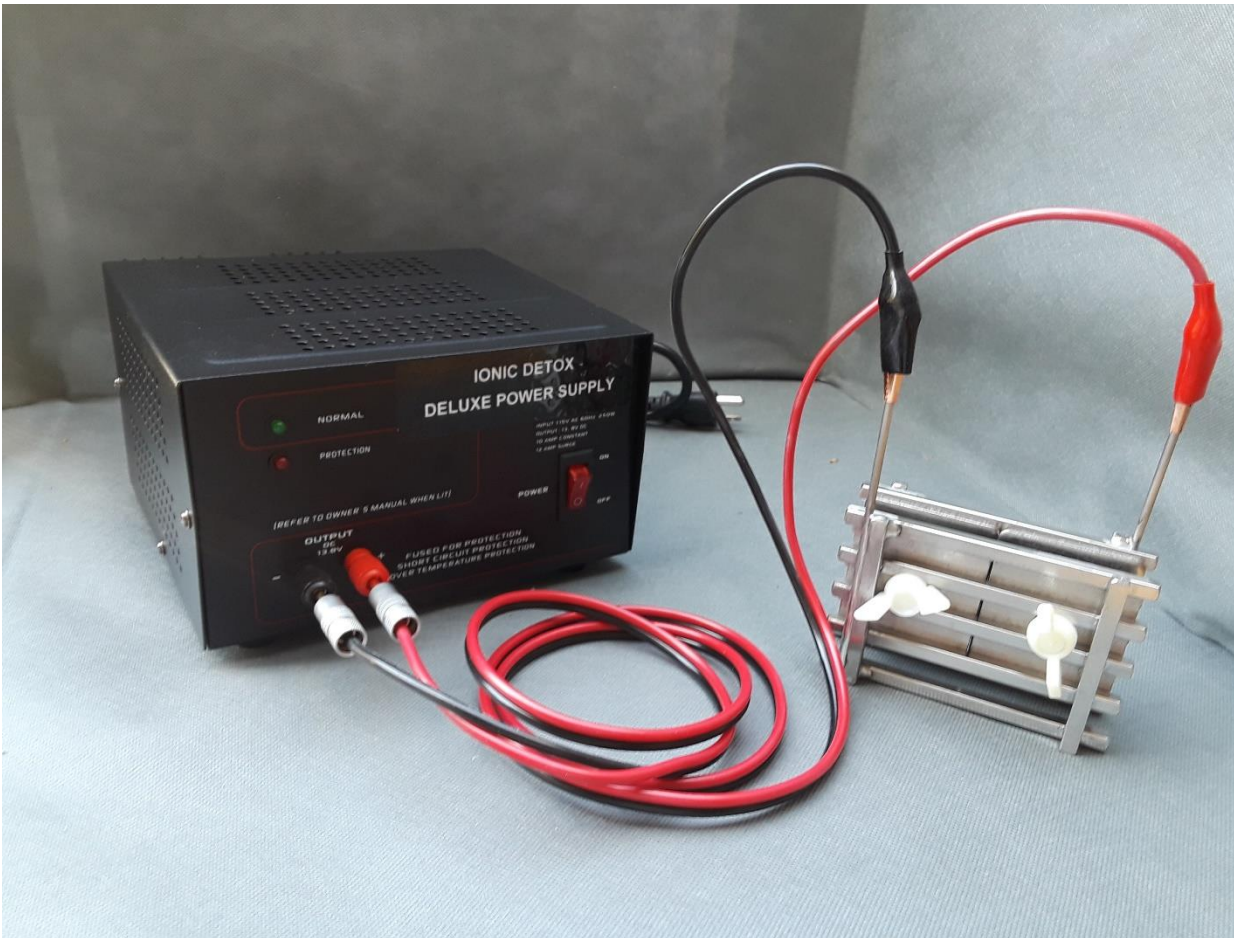

### Array

- Stainless Steel Construction
- Easily Cleaned

### Wire Connectors

- Each 5 feet in length
- Easy Connection to Power Supply and Array

## Deluxe Ionic Detox Device

### Ionic Detox Power Supply

- Fused for Protection
- Short Circuit Protection
- Input: 115V AC 60Hz 50W
- **10 AMP Constant, 12 AMP Surge**

### Arrays

- Stainless Steel Construction
- Easily Cleaned

### Wire Connectors

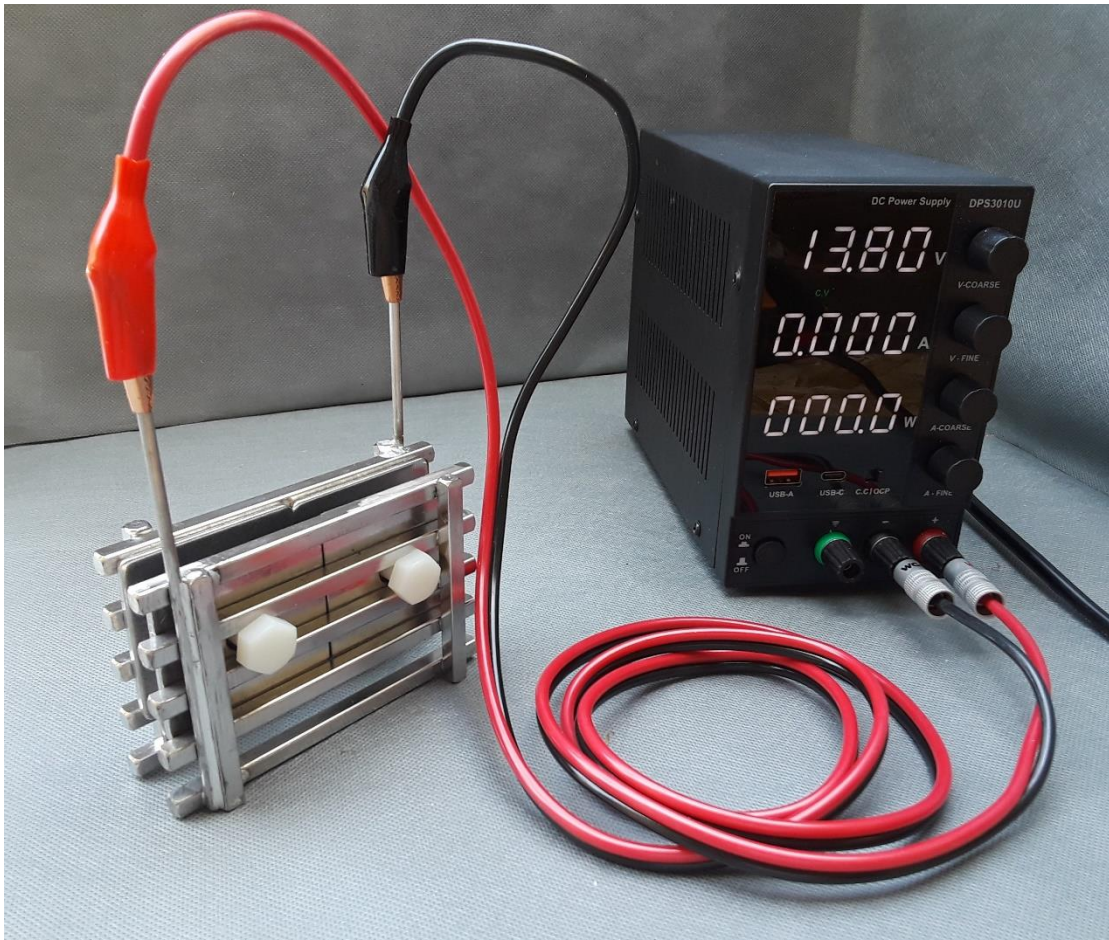

- Each 5 feet in length
- Easy Connection to Power Supply and Array

## Ionic Detox Dual-Plate Deluxe Device Manual

For Models DL112210B, DL119210B

Maintain Your Health and Vitality

## Digital Deluxe Ionic Detox Device

### Ionic Detox Power Supply

- Fused for Protection
- Short Circuit Protection
- Input: 115V AC 60Hz or 230V AC 50Hz
- **30V DC Max, 10 AMP Max (Adjustable)**

### Arrays

- Stainless Steel Construction
- Easily Cleaned

### Wire Connectors

- Each 5 feet in length
- Easy Connection to Power Supply and Array

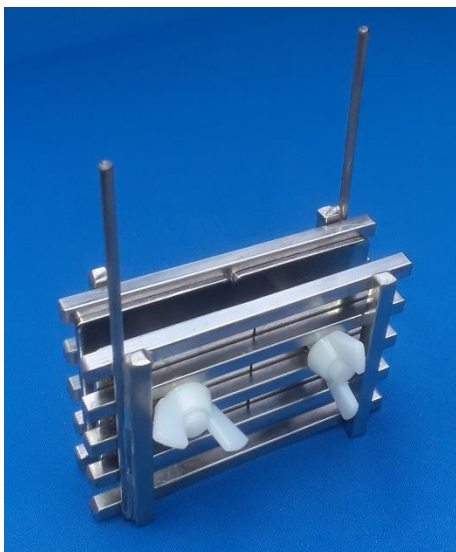

## Ionic Detox Dual-Plate Digital DL Device Manual

For Models DD112210B, DD119210B

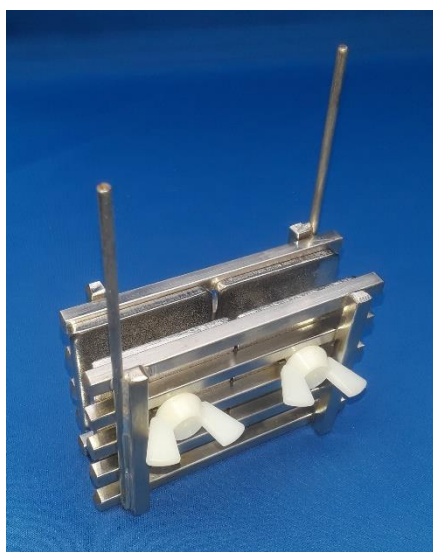

Maintain Your Health and Vitality

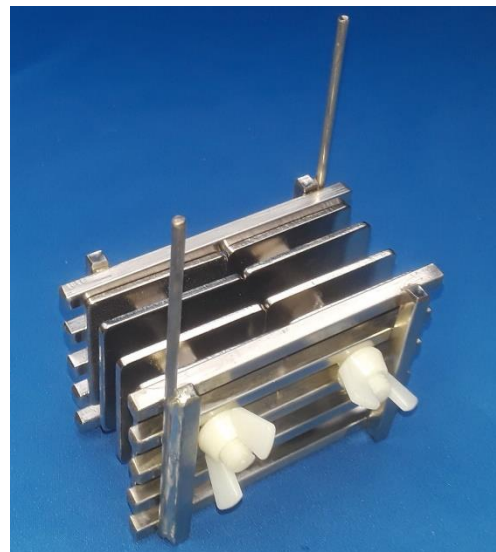

**Additional Options (Available on all Deluxe Units)**

**Heavy Duty Arrays**

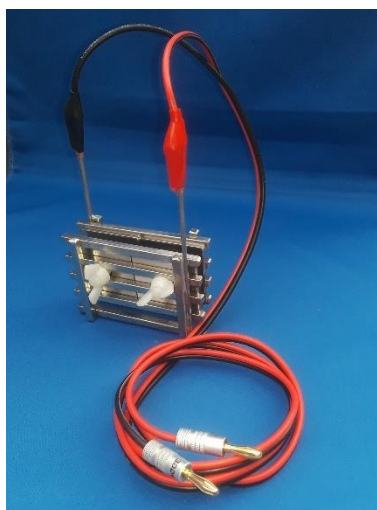

**Extra Heavy Duty Arrays**

**Quad-Plate Arrays**

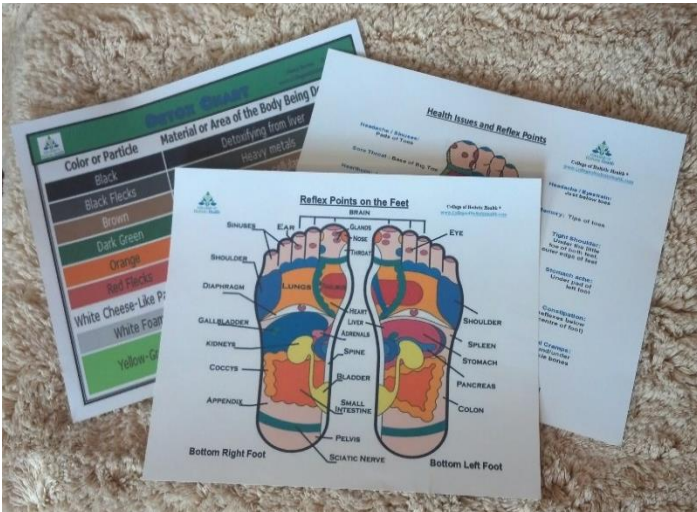

**Dual-User Systems with Dual-Plate or Quad-Plate Arrays**

## **Ionic Foot Detox Device**

The Ionic Detox Device is a modern day machine that safely and effectively helps balance the body's natural energy system. It also works by introducing a high level of negative ions into the water of a foot bath, hence through the feet. It uses the principles of reflexology and the science of ionization and osmosis, therefore creating a positive cellular environment. The device promotes Bio Energy Field Enhancement (BEFE).

An ionic detox foot bath may improve your Health. It helps the body re-balance its bio-energy fields and stimulate the body and aid in detoxification. The body's organs will naturally function better when the electro-magnetic fields are charged. **The Ionic Detox Device is not a medical device.** It is a holistic healthcare device, which can be beneficial to your health when used regularly. Because it helps to remove the toxins out of our body, it can be considered as an alternative approach for anti-aging, beauty, and disease prevention. Be sure to check restrictions and consult with your physician before using the device.

### **How Does Ionization Work?**

The energy fields of the unit permeate the water and realign the body's energy field. Many of the benefits attributed to the "rebalancing" of these energy lines allowing the body to function better. This action results in purging of toxins and nucleic waste kept and/or produced within the cells and surrounding membrane. The purge results in a re-correction of any abnormal deterioration within the body that has been caused by illness, injury, and virus-related, excluding birth defects. The Ionic detoxification device is a method for creating a bio-charge that is both safe and compatible with living matter. Water is the medium used because up to 80% of the human body is water. Salt is added to increase the conductivity of the water. The Ionic Foot Bath detoxification accelerates change in the body and promote health.

An ion is a charged atom that has gained or lost an electron, and creates a magnetic field capable of neutralizing oppositely charged particles. These neutralized particles are pulled out of the body through the skin via a process called osmosis, or the movement of particles through a membrane, from a higher concentration to a lower concentration. In this case, the higher concentration is the ion field set up by the array in the water.

The array goes into the water with the hands, feet or body, and the control unit delivers a small direct current into the array, which causes the metals within the array, in combination with the water and the salt, to generate positively and negatively charged ions by separating the water into oxygen and hydrogen. The ions generated by the Ionic Detox Device appear to travel through the body, and attach themselves to many different toxic substances, thereby neutralizing their positive and negative charges.

## Why Have An Ionic Detox Foot Bath Treatment?

With the increase in the number of chemicals introduced in the last fifty years, there has been a dramatic increase in incidences of auto-immune disease, allergies and common infections.

### Benefits

- Eliminating toxins and wastes.
- Help to relieve some diseases such as rheumatism, eczema, psoriasis, and edema.
- Help remove heavy metals, increases energy and speeds recovery from disease/injury.
- Increase the level of oxygen in the body.
- Help to relieve joint and muscle pain, allergies, and headaches.
- Assist reduce fatigue, and insomnia.
- The immune system may become stronger.
- Promote a healthy body metabolism.

There are thousands of chemicals in use today and most are toxic. Environmental toxins including heavy metals are everywhere and impossible to avoid. The problem is we absorb these toxins. Body fat that has been tested contains residue of hundreds of chemicals. Chemicals can act as toxins that block receptor sites on cells, then cause changes in calcium homeostasis killing cells. Metals and chemical toxins weaken the immune system and cause increased vulnerability to virus, bacterial fungal and parasitic infections. In an attempt to detoxify these substances, our bowels, kidneys and liver are being overloaded.

Our eliminative channels become blocked or dysfunctional, because, in conjunction with these synthetic chemicals, and the western diet that is so acid forming and de-vitalized. To relieve the strain on the kidneys and liver it is important to maintain a detoxification regimen. The ionic foot bath is designed to relieve these strains and help the body re-balance its energy fields allowing organs to function better.

### Mild symptoms of toxicity include:

Allergies, anxiety, bad breath, cellulite, constipation, digestive disorders, forgetfulness, headaches, lethargy, obesity, poor circulation, skin conditions.

### Some severe symptoms of toxicity include:

Arthritis, cancer, diabetes, heart problems, high blood pressure, kidney failure.
